

ACCORD

Advanced Components Cooperation for
Optoelectronics Research and Development

CALL FOR PARTICIPATION

As the ACCORD Project is now complete, it is not possible to Register or Submit a Proposal. However ACCORD's important work is continuing via its follow on programme NEXPRESSO the "Network for EXchange and PRototype Evaluation of photonicS componentS and Optical systems". Beginning in July 2010, NEXPRESSO is a 3 year programme funded under the Seventh Framework Programme of the European Union (FP7-ICT-2009.3.7: Photonics).

The NEXPRESSO website is: <http://www.nexpresso.eu>

Please visit NEXPRESSO where you will be able to register and in due course submit a proposal to either offer a photonic device or carry out research on such a device. Thank you for your interest.
